## The Mission's CEO Visits Liberia

The Kuwaa Mission's (KM) CEO, Rev. Dr. D. Jensen Seyenkulo was in Liberia for the month of April. Jensen traveled to Liberia for four main reasons: 1) visit with field workers, 2) visit mission projects, 3) enhance the mission's relationship with the Liberian government and 4) secure the mission's collaboration with other Non-governmental organizations (NGO) in the country.

### KM & Liberian Government

The mission's relationship to the government is stronger than ever.

*CEO with government officials and friends*

They have seen many other individuals and organizations come and promise great relief for the people but very few have delivered. The Kuwaa Mission has demonstrated commitment to the people and delivered on their promises. It is because of this that government officials devote a good amount of time to Kuwaa Mission business.

### KM and Samaritan's Purse

The Kuwaa Mission has formed a wonderful alliance with Samaritan's Purse (SP).

SP is a Franklin Graham NGO that has brought great relief to Liberians in many parts of the country. By agreeing to partner with the

*Thanks for the partnership SP*

Kuwaa Mission SP is expanding its mission to the Kuwaa people. Thanks to SP, the Kuwaa Mission got project materials to project sites by air early this year. As the result of the Jensen's visit, in November of this year the two missions will begin work on two very import projects: fishery and animal husbandry. These projects are needed to combat the malnutrition endemic in the region.

### Well Projects

Although he could not visit the project sites due to logistical problems Jensen held several meetings with the field workers. Chris, the field director and Koko, the contractor reported that the three new wells for 2011 are complete. Renovation work on the four old wells has begun. Residents of these villages are very grateful. After using the water filters for over a year, they have realized what positive effects safe drinking water can have on them and their children's future. We cannot thank our partners enough.

### Clinic Project

In the April issue of the Prayer Letter we reported on the need for a medical facility in the region. Among the reasons given in that issue are the facts that the closest hospital to the Kuwaa people is at least 80 miles away and due to the lack of motor roads, patients and women in complicated labor pain have to be carried in hammocks on foot for days in order to get to a medical facility. The donation of Lord of Life of North Pole, AK has motivated our field workers and villagers to work tirelessly to see that a clinic facility is a reality in the region. Villagers have molded 6000 mud and straw blocks and dug sand for the clinic.

*Blocks for the first clinic*

They are now awaiting the first cement shipment to build concrete blocks for the foundation. ♥

### Prayer Requests

- **Face-to-Face** – The Board of Directors has its first face-to-face meeting in early June. Please remember them in prayers
- **Full Time Missionary** - We need someone who will devote more time to the work. Please prayerfully consider supporting this need and make others aware of it.
- **Vehicle** – We are praying for a vehicle for the mission.

Thanks for the partnership.
